If ordering through DMLSS/DCAM and the product is not visible please contact your logistician, they may need to perform an update and/or source the item to make it visible for ordering. Otherwise, they should be able to order on your behalf or provide further ordering instructions to you.

or

Deployed:

- For Level III units such as a Combat Support Hospital, most supply and maintenance requests go through USAMMC-SWA in Qatar (USAMMC-SWA Customer Support Section at DSN 318-432-2375/2884 or at CUSTSUP@QATAR.ARMY.MIL).

- If you are deployed and have information requests (such as in this message), you should go through the USAMMA EOC USAMMAEOC@AMEDD.ARMY.MIL . USAMMA's EOC is the single point of contact for medical logistics issues from the CENTCOM region. The EOC will then forward the issues/query to the appropriate directorate or division within USAMMA.

Not Deployed:

- Customers not deployed should go through Customer Relations Management USAMMACRM@AMEDD.ARMY.MIL . In many cases, the same people handle customer queries, regardless of whether they come through the EOC or CRM; however, each has a different internal management process.

For questions or inquiries please contact Combat Medical directly:

Toll Free PH# 855-428-6074
